AUDIENCES

Reopening Checklist

As you reopen your store or office space, there are several practical items to think about for the safety and well-being of your employees and visitors. We all need to be mindful of local, state and federal safety standards, such as:

- **Limit the number of visitors or patrons inside the store based on square feet**
- **Adhere to social distancing protocols**
- **Sanitize entrance and exit doors multiple times per day and provide hand sanitizer within the business**
- **Install protective screens where employee/visitor interactions are likely**

The safety recommendations have been designed based on government regulations and we hope this checklist gets you thinking about your space, people and customers. Our goal is to help guide you through all the ways you can meet required guidelines and provide peace-of-mind as you resume business operations.

Gauging Your Readiness

- What is your expected reopen date?
- Do you have employees, visitors and/or retail traffic?
- Do you go to your customers or do they come to you?
- Are you looking for temporary, long-term or permanent solutions?

Ready: Your Exterior Physical Space

- Changes to parking or traffic flow
- Open / closed to visitors
- Curbside pick-up / drop-off
- No entry / entrance restrictions
- Occupancy limitation
- Entrance requirements for employees
- We're open (door or window graphics)
- Modified hours (door or window graphics)
- Shipping and receiving instructions
- Drop off area

Proper signage to direct and inform visitors and employees is critical, along with proper hygiene notifications and supplying necessary Personal Protective Equipment (PPE).
